

Show your community support by sponsoring the Steel City Dragons!

You can be a vital supporter of our cancer and community support dragon boat programs. The Steel City Dragons are residents from all around the Pittsburgh area who support each other and the community while gaining the fitness and wellness benefits of a sport that fosters camaraderie and mutual encouragement.

We have cancer support programs, featuring our acclaimed **Pink Steel** team and **Pittsburgh Unity** all cancer team. We also have the **Steel City Mixed** team of diverse men and women. We support our teams with an all-volunteer nonprofit organization where 100% of every donation benefits our programs.

Your sponsorship will give you significant market visibility through our activities and promotions in the Pittsburgh area and as we travel to other cities to compete in dragon boat festivals. We'll proudly display your support to influential fans and followers, whether in-town or out-of-town.
